

Dhirendra vishwakarma

Full Stack Developer | MERN Stack | Next.js | React.js | Node.js | TypeScript

📞 9305573854 ✉ dhiru7521071887@gmail.com 🔗 LinkedIn 🐙 GitHub 📁 Portfolio 📍 Kanpur, India

Professional Summary

Full Stack Developer with hands-on experience in building scalable web applications using React.js, Next.js, Node.js, Express.js, TypeScript, MongoDB, and REST APIs. Skilled in developing responsive user interfaces, secure backend services, authentication systems, and cloud deployment using AWS. Passionate about building AI-powered, scalable, and user-centric applications with strong problem-solving and debugging skills.

Technical Skills

Programming Languages: JavaScript (ES6+), TypeScript, Java, Python, C++
Frontend: HTML5, CSS3, React.js, Next.js, Tailwind CSS, Responsive Web Design, Framer Motion
Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Next.js API Routes
Databases: MongoDB, MongoDB Atlas, MySQL, SQL, Mongoose
Cloud & Deployment: AWS (EC2, S3, IAM), Vercel, Render
Tools & Technologies: Git, GitHub, Postman, VS Code, Linux, npm, Monaco Editor
Concepts: Data Structures & Algorithms (DSA), API Integration, CRUD Operations, MVC Architecture, Authentication & Authorization, Debugging, Agile Development, Responsive Design, State Management, Database Design.

Experience

Full Stack web Developer intern
HP Internship India | August 2025 – January 2026

- Developed responsive web applications using HTML5, CSS3, JavaScript, React.js, Node.js, and Express.js.
- Built reusable React components, integrated RESTful APIs, and implemented backend functionalities.
- Designed and managed MongoDB databases, performing CRUD operations for efficient data handling.
- Collaborated using Git/GitHub and Agile methodologies for development, debugging, testing, and code reviews.
- Deployed and maintained applications using AWS (EC2, S3), improving deployment efficiency and application availability.

Projects

Raw-One — AI-Powered Coding Agent & IDE | Next.js, React, TypeScript, FastAPI, LangChain 🌐 Live 🐙 GitHub

- Developed an AI-powered coding IDE using Next.js, React.js, TypeScript, Monaco Editor, and FastAPI.
- Built a LangGraph multi-agent workflow for code generation, debugging, explanation, and optimization.
- Integrated AI-assisted code completion, chat interface, and project management features to enhance developer productivity.
- Implemented a responsive UI with secure API integration and real-time AI interactions.

Deep Packet Inspection (DPI) Engine | C++, Networking, Multi-threading 🐙 GitHub

- Developed a multi-threaded DPI engine in C++ for high-speed PCAP analysis and network traffic inspection.
- Parsed TCP, UDP, HTTP, DNS, and TLS protocols to analyze network traffic.
- Implemented TLS SNI extraction, IP filtering, and rule-based packet inspection for enhanced network security.
- Optimized packet processing using multithreading to improve performance and throughput.

SpliteMate – Smart Expense Splitter | Next.js 16, TypeScript, Tailwind CSS, MongoDB, JWT 🌐 Live 🐙 GitHub

- Developed a full-stack expense-sharing application with secure authentication and group management.
- Implemented multiple expense-splitting methods, recurring bills, and real-time balance tracking.
- Built a responsive mobile-first interface with friend management and Lucky Draw functionality.
- Designed scalable MongoDB schemas and RESTful APIs for efficient expense and settlement management.

Education

Chhatrapati Shahu Ji Maharaj University
Bachelor of Computer Applications (BCA)

June 2023 - July 2026
